Mobile: 949-491-2293  
E-mail: [fanyix@cs.ucdavis.edu](mailto:fanyix@cs.ucdavis.edu)

### RESEARCH INTERESTS

My research interests lie in computer vision. I am also broadly interested in all AI/machine learning topics that could help achieve better visual perception for machines. I have research experiences in object recognition/detection, visual attributes and video data modelling. Currently, I am particularly interested in *mining* weakly supervised dataset for the purpose of exploring, organizing, and harvesting useful information that could help improve various vision tasks.

### EDUCATION

**University of California Davis, Computer Science Dept.**, Davis, CA, USA

Ph.D. student, Computer Science

- Advisor: Prof. Yong Jae Lee

**Carnegie Mellon University, Robotics Institute**, Pittsburgh, PA, USA

M.S., Robotics, 2014

- Advisors: Prof. Martial Hebert and Prof. Yaser Sheikh
- Thesis: *Model Recommendation for Large Scale Exemplar-based Object Detection*

**Central South University, Computer Science Department**, Changsha, China

B.S., Computer Science, 2012

- Thesis: *Facial Expression Analysis with Active Appearance Model*
